## BBR Network support for Thailand children's charity

The BBR Network has presented a check for 200,000 THB to The Santisuk Foundation to support their work among the poor and needy children living in slum communities in-and-around Bangkok.

This donation was made possible through sponsorship of the annual BBR Charity Golf Tournament by BBR Component Manufacturers – Zetkama, RSG Präzisionsfertigung and Hufschmidt Espana – and golf players from BBR Network Members Stahlton, KB Spennteknikk, Spännteknik and BBR Construction Systems. The Tournament was held at the Pinehurst Golf & Country Club near Bangkok, just before the start of the annual Global BBR Conference.

Immediately after the Conference had finished, BBR Chief Executive Antonio Caballero and BBR Chief Business Development Officer, Thomas Richli visited The Santisuk Foundation to present the donation and also hear more about the Foundation's latest achievements and objectives. While visiting, they also took the opportunity to meet some of the children and distribute some small gifts.

Antonio Caballero said: "It was a real privilege to meet some of the people behind The Santisuk Foundation and also some of the children who are clearly benefiting from their support. BBR has been active on the construction scene in Thailand for many years, so we are delighted to be helping one of the communities in which we work."

The BBR Network is recognized as the leading group of specialized engineering contractors in the field of post-tensioning, stay cables, geotechnical and construction engineering in over 50 countries.

*"Through your kindness and support, the educational opportunities are offered to truly in-needed children and families. And when you gaze into the eyes of these children, you will understand the meaning of the words: Hope is needed!"*

*Patraluck Limahutaseranee  
Director of the Santisuk Foundation*
